YIXIN CAO

San Diego, CA (858) 568-0196 yic072@ucsd.edu

EDUCATION

***Master of Science in Business Analytics*,** Rady School of Management 09/2025-12/2026
University of California, San Diego, CA

Bachelor of Science in Probability & Statistics 09/2021-06/2025
University of California, San Diego, CA

EXPERIENCE

***Assistant*,** Excel-Robotic LLC — Dallas, TX 06/2022 - 08/2022

- Coordinated course schedules and managed daily operations to ensure efficient and timely delivery of multiple classes
- Organized and prepared instructional materials, improving workflow efficiency and reducing delays in execution
- Maintained attendance records and tracked student participation, supporting data-driven monitoring of performance
- Led 5 courses and provided tutoring to students, improving task completion and overall learning outcomes

***Mentor*,** UCSD Mentor Collective Program — San Diego, CA 10/2023 - 02/2024

- Maintained regular communication with 2 mentees, providing personalized guidance on academic progress and career development
- Supported goal setting and connected mentees with resources, improving learning outcomes and career readiness

PROJECTS

Uber Congestion Pricing Analysis, MGTA 479 Pricing Analytics, Rady School of Management 03/2026

- Analyzed the impact of congestion pricing on demand using DID and estimated elasticity across peak and off-peak periods
- Simulated pricing strategies to optimize demand, revenue, and profit, recommending time-based pricing adjustments

Inventory Optimization Capstone Project, Crafter*,* Rady School of Management, UC San Diego - Upcoming 04/2026-06/2026

- Will analyze inventory performance and stockout patterns to identify inefficiencies in demand planning and purchasing
- Will develop demand forecasting models and inventory strategies to improve inventory turnover
- Will design recommendations to optimize purchasing decisions and working capital allocation under limited cash constraints

Global Sourcing Strategy Project, MGTA 456 Supply Chain Analytics, Rady School of Management, UC San Diego 03/2026

- Analyzed single and dual sourcing strategies (Mexico vs. China) under different lead times and cost structures to optimize supply decisions
- Developed inventory ordering policies based on demand data and lead-time constraints to maximize ending cash balance
- Evaluated trade-offs between cost efficiency and responsiveness, identifying optimal sourcing strategies to improve profitability

Methane Leakage Detection Project, San Diego, CA 09/2024 – 03/2025

- Collected and integrated environmental and emission data in Texas Area (e.g., flow rate, plume location, wind conditions) from multiple sources
- Cleaned and analyzed data to identify patterns and correlations in methane leakage behavior
- Conducted exploratory analysis and literature review to evaluate approaches for methane leakage prediction

SPECIALIZED SKILLS

- **Languages/Coding:** Python, R, MATLAB, SQL
- **Data Analysis:** Excel, A/B Testing, Data Visualization
- **Tools:** SQL Developer, Google Analytics
- **Spoken Languages:** English, Chinese
